Description of Company

Scan Granitt AS is Norway's leading manufacturer of stone countertops, with kitchen brands such as Sigdal, HTH, Strai Kjøkken, Designa, Svane Kjøkkenet, and Byggmakker among our customers. We have a factory in Sandefjord and installation departments in several locations across the country.

Since our founding in 1998, we have grown to become the largest player in our segment in Norway. Today we are 48 employees -- 15 in administration and 33 in production/installation -- with an average age of around 40.

Scan Granitt maintains a very strong focus on service and precision, which is reflected throughout the organization and in everything we deliver to our customers. We always aim to deliver our products at the highest level, so that we can rely on returning customers and a strong reputation.

Number of employees: 48

Job title	CAD Technician – Stone Fabrication
Job description	In this role, you'll take field measurements from our installation teams and turn them into precise, production-ready drawings -- including complex, high-end custom projects. You'll work closely with our production department (using Breton CNC machinery and software) as well as with the installers who perform the on-site measurements, and with our sales team. What you'll do • Convert control measurements from installers into accurate CAD drawings for production • Verify joints, edges, and cutouts against customer specifications before production • Prepare drawings and cutting layouts for complex, high-end stone projects • Work closely with production, using Breton-supplied CAD/CAM software and CNC equipment • Coordinate with installers and sales to resolve discrepancies before manufacturing begins
Skills: Education, work experience, language, certificate etc.	What we're looking for • Experience with CAD or technical drawing (specific software experience is not required -- we provide training on our systems) • A background in stone, kitchen, or similar production is an advantage • High attention to detail and precision

Working hours and place of work Start date (and, if necessary, End date) Salary Other information	• Fluent in English and/or Norwegian • Comfortable working closely with both production and installation teams
	Permanent position. Daytime, Weekdays Monday to Friday
	01.10.2026 or to be agreed.
	NOK 520.00-580.000 (48.000-53.000 euro) yearly salary
	What we offer • Fixed position • Office- and factory-based role in Sandefjord • Training on our systems and machinery • The opportunity to work on complex, high-end projects • A stable, growing company with professional and dedicated team
